

Regional 4WD Training -- Our specialty!

We've been delivering One-to-One & Small group training for over 25 years and we are Nationally Accredited Driver Trainers & Assessors who can teach you new four-wheel drive and recovery skills or build on existing knowledge you may have already gained. We train you to the **Nationally Recognised Standards in 4WDDriving & 4WD Recovery** and **ATV / SSV** training from several different Training Packages.

Our comprehensive training covers topics such as:

- Theory overviews
- Trip preparation and safety issues
- Identifying terrain, track conditions and obstacles
- 4WD driving techniques in different terrains
- Wheel changing to WHS requirements
- Basic 4WD recovery skills and techniques
- Steep ascents/descents & water crossings
- Controlled Stop/Start recoveries
- Advanced 4WDDriving and Recovery skills
- Conducting routine maintenance checks
- General UHF radio communication techniques
- Environmental issues & low impact camping
- Towing a Caravan or Camper Trailer Off Road

Corporate / Group 4WD & ATV/SSV Training

Our corporate 4WD training sessions are designed for employees who need to use four wheel drive vehicles and ATV/SSV's on a regular and/or a casual basis.

We specialise in the design and implementation of client specific and site-specific **4WD & ATV/SSV** (Side by Side ATV) Driving & Recovery training courses and **QRV & Defensive Driving** Courses aimed at reducing the incidence of accidents and vehicle damage in the workplace. Our courses are cost effective and can be delivered locally, allowing your staff to be trained in locations realistic to their work environment, in the vehicles they are familiar with and we put a strong emphasis on Workplace Health & Safety aspects.

to book and for more information.

Considering a Tag along Tour? Do you need some 4WD Training?

Perhaps you've just purchased your first 4WD or owned one but not really been Off Road yet? Or perhaps you own a 4WD because it's a weight requirement for the caravan or camper trailer you tow. Would you like to know how to get the best from it? Consider doing one of our 4WD courses to get more out of your 4WD vehicle and / or to learn new skills with it before heading into the remote Outback.

What recovery equipment do you need and more importantly how do you learn how to use it safely? What do some of the new 4WD technologies and accessories do for me and when and where do I use them? What's the difference between a snatch strap and a winch extension strap? How do I best fit out my 4WD, as it's really confusing to try and work out what you really need from all the information and gear available?

By combining our safe and responsible approach to training with the beauty of the Australian bush, we have created truly unique 4WD courses and learning experiences. The courses are a structured learning program, they are flexible and provide the trainee with the necessary skills required for safer outback travel, off road driving and 4WD vehicle recovery.

Our 2023 Extended 4WD Tag along Tour The Canning Stock Route – W.A. 4 week iconic adventure

Join us as we traverse the iconic Canning Stock Route (CSR) crossing three remote deserts in outback WA. The CSR is over 1800km's long with over 1000 sand dunes and crosses the Great Sandy Desert, parts of the Gibson Desert and the Little Sandy Desert. In 1906, Alfred Canning surveyed and built a stock route with a series of wells for droving cattle from the Kimberley's to Wiluna, to get them to the markets. It took over four years to build and today it's considered the remotest and harshest 4WD Track in Australia and one of the most isolated tracks on earth. We'll be leaving from Alice Springs and heading up the iconic 'Tanami Track' to travel north to south, 4WDing, photographing and learning about the droving & Stock Route history. Our tour includes two nights at Durba Springs, so you can really enjoy the scenery, have a rest and even a swim! We'll visit all the Wells we can as we make our way south to Wiluna, concluding the tour and celebrating our epic crossing with an 'End of Tour' dinner in Kalgoorlie.

Have a 4WD but just not sure where to go? Why not join us on our exclusive Full Day Tag along Tours in the Flinders Ranges! It's a great way to get a glimpse of the Flinders Ranges exploring its ancient geology, abundant local wildlife, railway history and historic ruins. There's nothing like having a local & passionate guide to show you around and take you to the spots many others miss !!

A Special Tag along Tour for 2023 !! Our 40th Anniversary 'Red Centre Tour' 14 day Outback adventure

Join us on our very special **40th Anniversary** Tag along Tour, as we retrace Norm's first 'Outback Tour' way back in 1983! We follow as close as we can to the Old Stuart Highway as we head north through Kingoonya and across station country to Coober Pedy. Then it's on to Yulara to explore Uluru & Kata Tjuta for a few days and then up to walk through Kings Canyon and Gosse's Bluff before we drive around the Mereenie Loop and into the magnificent West MacDonnell Ranges. A few days to relax in Alice Springs and a trip out to Ross River in the East MacDonnell's before we head south to Kulgera and then down the iconic Oodnadatta Track and into Wilpena Pound in the magnificent Flinders Ranges.

Our feature Tag along Tour Madigan Line (Northern Simpson Desert) 14 day epic adventure

Join us on one of our most popular and epic tours – the trip of a lifetime, as we trace the steps of Dr. Cecil Madigan who led his team of 9 men and 19 camels on his 1939 crossing of the remote Northern Simpson Desert. Experience starry nights, warm campfires and very remote and challenging 4WDing as we travel from Mt. Dare Hotel and via Old Andado Station, traversing over 750 sand dunes, visiting and camping at the Madigan Line camps. We make our way eastwards on our very relaxed tour as we head to 'Big Red' completing our crossing into Birdsville for a meal at Camp 25 - the iconic Birdsville Hotel. A few days to relax and then we head down the iconic Birdsville Track and into the magnificent Flinders Ranges.
